“ *I miss you Mom.. I have been so overwhelmed by all of the people who have said prayers for you and who have showed and given me support to cope with my grief for you. Your passing happened so fast and the tears right now for me just typing out this message for you is so heart breaking..this is my memory of you... how I want to remember you.... Smiling at me even when days were bad because just seeing you smile and being pain free kept me going everyday. I love you forever Mom. Your daughter. ..Angela Jenkins*
