“ Ruth and I would like to express our deepest sympathy to the family and friends of Gary. Gary was proud and loved his family very much. He always looked forward to the trips to Ohio and to visit the girls and their new Grand babies. Family was very special to Gary.

We have known Gary for close to thirty years. We were both transferred to IBM Atlanta at the same time. We worked together in the same group for many years. We visited many places and worked on many projects together. Gary was a great worker and was always willing to help others. Gary left IBM and went into business for himself. We continued to work together on several of his projects.

Gary knew something about everything. The phrase "been there and did that" was about Gary. Working on a complicated broadband video network, removing the engine from a car or studding out a wall Gary had been there and done that. He was my "go to guy". If I ever had a question or problem, Gary was the guy to call. I learned a lot from Gary, he was a good teacher and I will miss him a lot.

May God rest his soul and make good use of his skills as we here on earth will surely miss him.##imported-begin##Frank and Ruth Miller##imported-end##
