“ Linda,

Rita and I send our condolences to you and your family. We are at our time in life where ours is the Fall Season and our parents are in the Winter of their years. As with the seasons of life the Winter years bring completion to our journey. Your mom has lived her seasons and like life intended she blossomed, bloomed, offered her beauty and shed her petals. She has now completed her life cycle and is ready to return to the earth that has nourished her so well. In this new place she will bloom again in all her beauty and not be tethered by life's seasons. There her blooms are eternal. Our prayers to you and all your family. Thom & Rita.
