“ One of my Favorite Memories of Stephen was in the Second Grade. He sat behind me in class and we would slip notes and talk to each other. My last School Memory of Stephen was the Monday after we Graduated from High School and had to go back to Baldwin High School and get our Diplomas to put in our Diploma Cover. We were standing out front of the school talking and laughing about all the years we spent in each others class rooms at Midway School (Grades 1 through 7) We talked about how we would always be friends and had all these big plans...
