“ I first met Steve in 1994 at Epps aviation when I recently was hired there. Although we worked in different hangars, I quickly learned he was quite a character! At that time, he was heavily involved in a contract with a fleet of MU-2 aircraft . Soon after that I learned more and more about what devotion to your mission with a company meant, and certainly I had never seen any one work so hard to make that mission proliferate and become so successful. He was incredibly talented as an aircraft technician, but also in the business aspect of all of aviation management as well. Your health battle is now over Steve, ride your motorcycle in the heavens! Rest now my friend.

“ I was already working at Epps Air Service when Steve came on board. We sort of 'grew up in aviation' at Epps. Lots of memories and stories could be told. He was so fun to work with. Getting something accomplished was our main objective, but having fun doing it was right up there with it. I was hoping to visit after his retirement, but looks like it won't happen the way I wanted it. Rest in peace my friend!

“ Steve Taylor was my step father at one time. He was amazing in so many ways! My children and I love him dearly. Steve was always there for us! From helping us with the tile in our bathroom to the breaks on our cars. He was good to me and for that I am so grateful!

You will be missed but never forgotten Steve! Thank You for loving us when you didnt have too.

“ I had the pleasure of meeting Steve, "Skin", when I became employed at Epps, March 1980. We would cover each other while wrenching on aircraft. He would finish what I started, and I would finish what he started. And together we got nothing done. We would get together after hours, occasionally, knock down a few brews and talk about guns and motorcycles. I will miss him as I'm sure everyone else who knew him will as well.

“ *Steve will certainly be missed. I always enjoyed talking with him at rallies and elsewhere, as talk almost always turned to growing up in Alma since I'm just a few miles down the road. He's had a rough road these past several years, and while I hurt for Darlene and the family's loss, I like to think he's already cruising new roads in Heaven. Rest easy my friend.*
