“ I only learned about his passing today. I am sure his boisterous, hearty, and (at times) comically abrasive personality is missed. I say this as Wyatt's previous girlfriend of 13 years, so I've got an idea! What a hoot he was! I wholeheartedly wish to extend sympathy to his family. Terry's folks were at times exasperating and delightful. Clyde, if you happen to see this, I would love to be able to speak with you and reminisce. Since it's a public forum, I'm unsure how. Wyatt, the same. I have more good memories that I would love to thank you both for.

“ At family get togethers, what I remember most about my Uncle Terry is he was always fashionably late :) and seemed to really love life. He was living life to it's fullest! Prayers for peace as you process the loss of this special man!

“ My heart is heavy with emotion with a feeling of great loss! Memories flood my mind of our childhood, of a brother that was always there to help and understand! My brother was a witty person with a great sense of humour. We enjoyed delivering early morning newspapers together when we were young and at the end of the route we would sometimes stop by a bakery on the route and get a cream horn. I love him dearly and will miss him greatly!
